ADITYA KUMAR GAUTAM

Cloud Data Engineer | GCP | Scalable Data Platforms | AI-Ready Architectures

adityaec1006@gmail.com | +91-9198882151 | Portfolio

PROFESSIONAL SUMMARY

Cloud Data Engineer with 6.5+ years of experience designing and operating production-grade data platforms on Google Cloud. Specialized in building scalable ETL/ELT pipelines, optimizing distributed query performance, and architecting AI-ready data systems. Proven track record of improving data reliability, performance, and operational efficiency across large-scale enterprise environments.

KEY IMPACT HIGHLIGHTS

30%+ Reduction in manual reporting via automation	**99%+** Accuracy in enterprise-scale data migration	**95%+** SLA compliance in production systems	↑ DB performance via indexing & query optimization

TECHNICAL SKILLS

- **Languages:** Advanced SQL, Python (Pandas, NumPy, APIs, Automation)
- **Cloud (GCP):** BigQuery, Cloud SQL, Dataflow, Pub/Sub, Cloud Storage, Cloud Run
- **Data Engineering:** ETL/ELT, Data Modeling, Batch & Streaming Architectures, Data Migration, Workflow Automation
- **Databases:** MySQL, Relational Systems, Query Optimization, Indexing, Partitioning
- **Tools:** Git, CI/CD, APIs, Agile, Looker / BI Tools
- **AI Exposure:** Feature Engineering, ML Data Preparation, Generative AI Fundamentals

PROFESSIONAL EXPERIENCE

Google Operations Center — *June 2022 – Present*

Metrics & Reporting Senior Associate | Cloud Data Engineer

- Designed and deployed scalable ETL pipelines on GCP to ingest and transform structured and semi-structured datasets across business systems.
- Built automated SQL + Python workflows reducing manual reporting effort by **30%+**.
- Optimized BigQuery and Cloud SQL performance using indexing, partitioning, and query tuning, improving reporting latency and system reliability.
- Led large-scale Salesforce → Google Cloud data migration achieving **99%+** data accuracy.
- Implemented data validation, monitoring, and quality frameworks to ensure high-integrity reporting for business-critical dashboards.
- Built reusable ingestion APIs and automation frameworks to standardize data processing.
- Resolved high-impact production incidents and maintained **95%+** SLA compliance.
- Partnered with analysts and stakeholders to design scalable dimensional data models supporting analytics and decision-making.
- Mentored junior engineers on SQL optimization, GCP tools, and automation best practices.

Wipro — *Oct 2019 – May 2022*

Analyst | Data Analyst

- Built automated SQL ETL pipelines enabling cross-departmental reporting.
- Improved MySQL query performance through indexing and partitioning, reducing execution time significantly.
- Developed dashboards and reporting frameworks to enable data-driven decisions.
- Built automation scripts to streamline recurring data workflows.
- Resolved **500+** client data/system performance issues.
- Collaborated with cross-functional teams to translate business needs into scalable data solutions.

CERTIFICATIONS

- **Google Cloud Digital Leader** — Google *2026*
- **Dual Certificate in Full-Stack Data Science** — NASSCOM & Jigsaw *2022*
- **Automation Intelligence & IoT** — IIT Kanpur *2018*

AWARDS & RECOGNITION

- **Star Award** — Google Operations Center *2024*
- **Dazzle Award — Automation Excellence** — Wipro *2021*
- **Illuminate Employee of the Year** — Wipro *2021*

EDUCATION

- **Bachelor of Technology — Electronics & Communication Engineering** *Aug 2015 – Aug 2019*
